To Whom It May Concern,

CONFIRMATION OF JURY SERVICE — NATALIIA FURSENKO

ISOUL Global Women's Association confirms that Ms. Fursenko served as a Member of the Global Leadership Jury of the ISOUL Women Leadership Award · Paris 2026, in the Innovator of the Year category. The ceremony was held on October 3, 2026, at the Conservatoire Rachmaninoff, 26 avenue de New York, 75016 Paris, France.

About the organizer and the award

ISOUL Global Women's Association is an international women's association founded in Silicon Valley by Jane Milovanova. It unites women founders, executives, investors and experts — more than 5,000 participants across 29 countries, with a core community of 250+ Resident Members and regional Presidents and Ambassadors worldwide.

The ISOUL Women Leadership Award · Paris 2026 is the third edition of the association's international recognition program, following San Francisco (October 25, 2025) and Los Angeles (March 27, 2026). The ceremony was held on October 3, 2026, at the Conservatoire Rachmaninoff, 26 avenue de New York, 75016 Paris, France, and brought together about 100 guests, including nominees, jury members and members of the ISOUL community. Thirty-two nominees were shortlisted across eight categories and evaluated by a Global Leadership Jury; one winner was announced in each category.

Appointment and qualifications for the category

ISOUL invited Ms. Fursenko to the jury on August 20, 2026 and seated her on the Innovator of the Year panel. Ms. Fursenko holds a PhD in Law and is an expert in international, immigration, human-rights and comparative law. She created the Legal Bridge Method and the AI Legal Relocation Assistant. She is an Honorary Member of the British AI Leadership Association and the Association of Workers of Ukraine, and she was awarded the international Order of Saint Sophia for her work in international and immigration law and human-rights protection.

ISOUL seated her on this panel because the category calls for that perspective. Innovator of the Year is awarded to a woman who turns a new method or technology into real impact, and the evaluation asks jurors to judge that contribution. In ISOUL's judgment, Ms. Fursenko's work joining law with artificial intelligence equips her to make that assessment.

Duties performed

As a member of the jury, Ms. Fursenko:

- Served on the Innovator of the Year panel and received the official profiles of the four shortlisted nominees on September 29, 2026: Aime Tang, Lia Yuldinawati, Nataliia Shikht, and Amna Almandoos
- Completed ISOUL's confidential jury evaluation for that shortlist before the October 1, 2026 deadline
- Kept nominee information and jury materials confidential, in line with ISOUL's jury rules

The ISOUL Award committee reviewed the jury's work and announced one winner in each category at the ceremony on October 3, 2026. The full Global Leadership Jury is listed in document 07.

This letter is issued at the request of Ms. Fursenko for professional documentation purposes. It confirms the facts of her jury service as recorded by ISOUL as organizer of the award.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jane Milovanova', with a stylized flourish above the name.

Jane Milovanova
